

# PEDRO SANCHEZ REPORT

**April 2024.**

We had the first men's conference of this 2024. It was a pleasant day to rejoice with the word of the Lord and have a rich communion with each other. About 14 congregations participated!

We were studying the book of Titus 1:5 to encourage the churches and organize themselves biblically.

## UNITED WHORSHIP

It was the first United Whorship of the year with participation of 14 congregations. Through preaching, the call to the churches was "Not to please ourselves, but to our brothers"

We had the pleasant visit of our brother Manuel Herrera. He is a young preacher who serves in the church of Christ in Uruguay. The church sent us Manuel to the Los Nogales to be able to train him and prepare.

This April we already started working with families who have been in the church for a short time and start dicipling in the house

Our young adults ministry called “Believe” is a ministry that study the bible together, have a fellowship times and also have activities based on helping in a biblical and humanitarian way , orphanages, nursing homes and people in a street situation. They are a great blessing for all of us!
